Dear Dr. Stokes:

Your agency is the only one that is devoted to the development of non-animal test methods and in the last 10 years you have only approved one non-animal test.

Your European counterpart has approved of dozens of non-animal test methods.

Meanwhile hundreds of thousands and millions of animals suffer and are abused for no reason at all. This is just not acceptable.

I want this agency to change and eliminate – yes eliminate all animal testing. There is no excuse for the suffering of animals for no apparent reason. Non-animal test methods have been demonstrated to be more accurate, more sensitive and more protective of public health.

Please adopt every available non-animal test and eliminate all animal testing.

Sincerely,

/s/
